

BUSINESS

TRUSTED TO KEEP YOUR BUSINESS CONNECTED

Simplify your communications with IP Connect UK. A reliable network is the foundation of every successful organisation. With IP Connect UK, you can securely connect sites of all sizes across local, national, and global locations through a single private IP network – bringing your voice, video, and data services all together.

You'll also gain access to cloud providers, with the flexibility to adapt as your business grows and your needs change. As the UK's leading IP VPN, it delivers performance you can rely on while helping to reduce your total cost of ownership.

KEY FEATURES:

Access to market-leading cloud providers, including Microsoft Azure, AWS, Google, and Oracle.

Add our Managed Services and we'll design, maintain and manage it for you.

A wide range of access speeds and technologies connecting sites of all sizes.

MARKET-LEADING RESILIENCE

A resilient, diverse core network minimises downtime and supports business continuity. Strong SLAs protect availability and network performance.

SCALABLE, CONSISTENT PERFORMANCE

Adjust your bandwidth as your requirements change, with the option to scale from 10Mbps to 10Gbps.

CLOUD CONNECTIVITY

Directly connect to leading cloud providers, including Azure, AWS, Google and Oracle to enhance security, performance, and ease of management.

FLEXIBLE, COST EFFECTIVE DESIGN

Choose from multiple access technologies, resilience options, and any-to-any or hub-and-spoke configurations. Wires-only and managed options align the service with operational needs and budget.

MANAGED SERVICES AVAILABLE

A single service desk coordinates delivery, monitoring, and incident management. Reporting and network management options provide ongoing visibility and control.

CONNECTIVITY THAT KEEPS PACE

IP Connect UK has the widest geographic availability on the market.
