

# Are you losing control of your local area network?

Find out how to take it back and build the right foundations for a digital future.

# Challenges of the modern workplace

Legacy networks face many challenges. Frustratingly poor connectivity. Patchy wi-fi. Lack of visibility of who's on your network. From management to optimisation, the strategy isn't straightforward.

Legacy

To work effectively in the modern workplace, you need good network management.

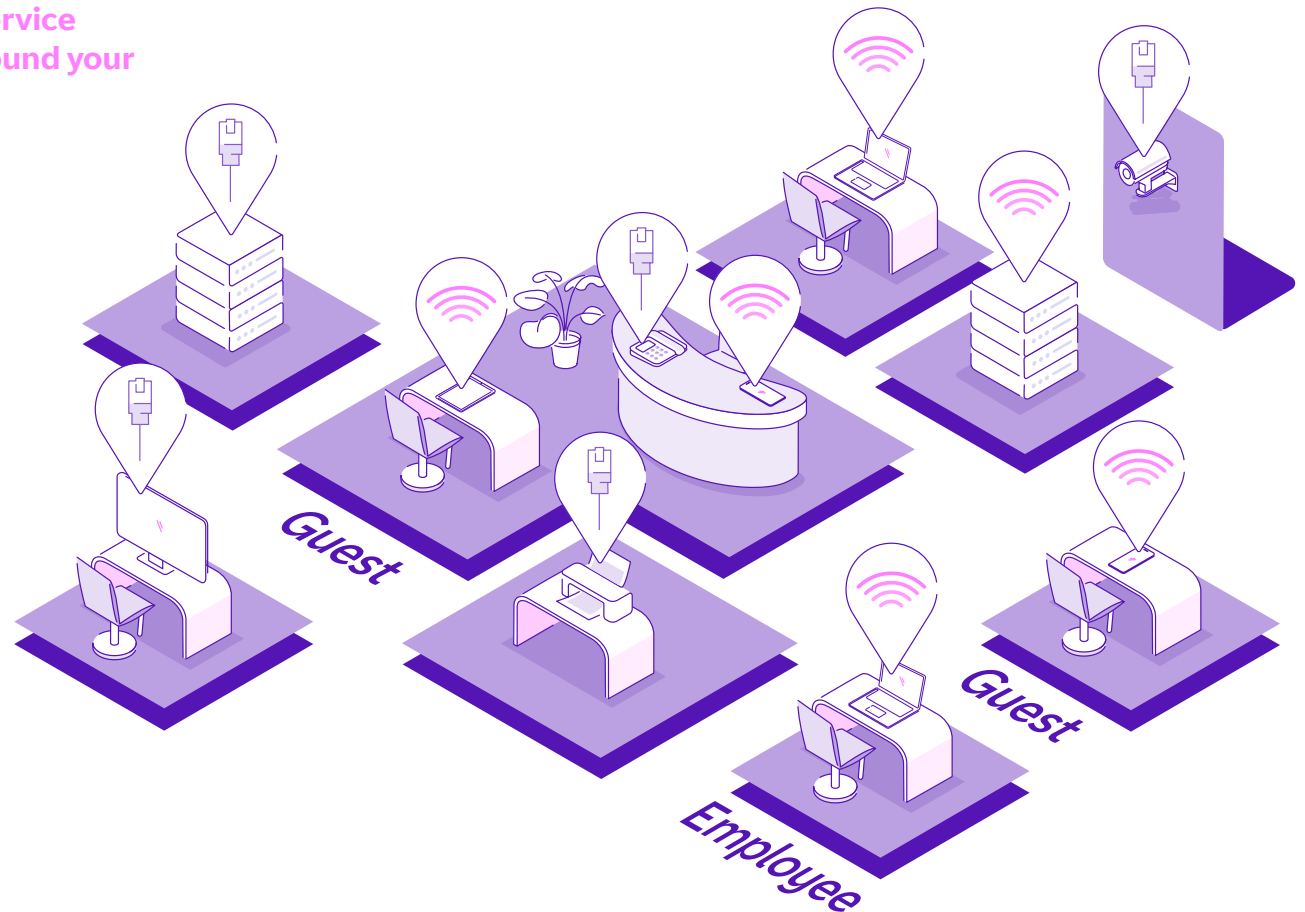

But network management can eat up time and resources.

# Bring your LAN and wi-fi together into one managed solution

Transform your network into a fully-managed service and wireless-first environment. All designed around your organisation's individual needs.

LAN and Wi-Fi

One fully-managed service.

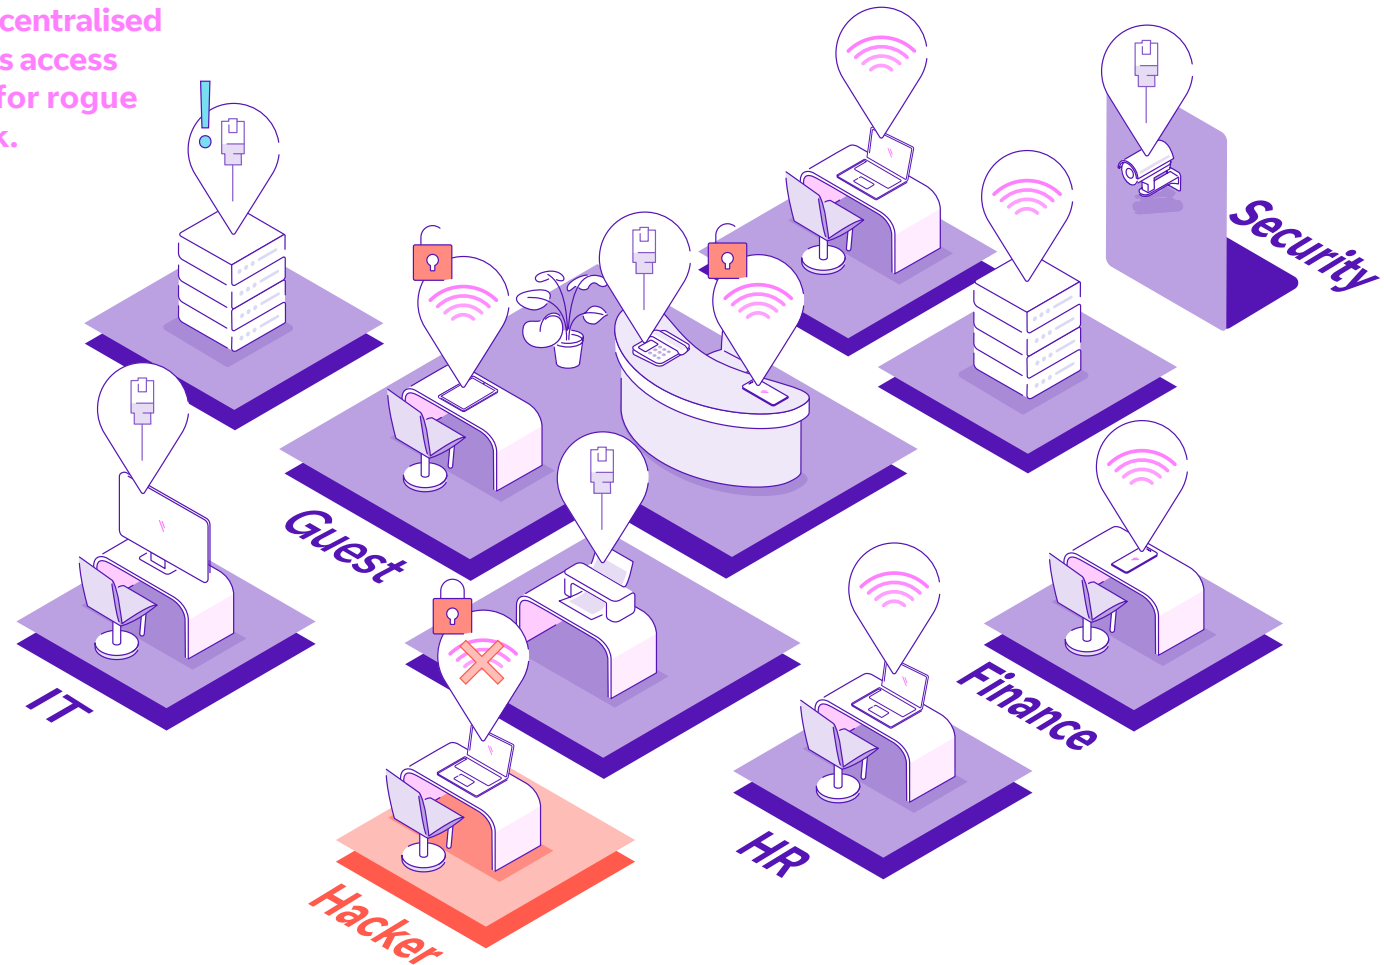

A wireless-first workplace.

A network ready for the future.

# Make the most complex networks simple with SD-LAN

SD-LAN

A software-based networking solution giving you centralised and automated control of which users and devices access your site or campus. Shut down system access for rogue devices, keeping the network secure from attack.

Easy role-based segmentation of complex user groups.

A single pane of glass.

Cut costs. Work smarter.

# Four reasons to choose BT

## 1. A team that runs like clockwork.

You'll get a dedicated team with a project manager to handle the switch to your new solution. Our UK-based operation centres offer round-the-clock support and tailored SLAs. And we'll review your service with you regularly, checking everything's working as promised and helping you plan for the future.

## 2. One size rarely fits all.

You might be a manufacturer with 100 people. Or a public sector institution with tens of thousands. Our Professional Services team support businesses of all shapes and sizes. So we've got the experience and resources to tailor every step to you: the set-up, the service you get along the way, and any upgrades or flex you need down the line. All on a model that fits your budget.

## 3. Partner with the experts. We do.

We're a Cisco Global Certified Partner, one of only four in the world. Cisco place their trust in us to deliver market-leading networking solutions to the highest standards, tailored and optimised to your specific requirements.

## 4. One, everything.

We don't just take away the headache of managing your LAN and wi-fi. We make everything simple and streamlined. And that includes dealing with us. One bill. One point-of-contact. One service. Zero hassle.
