

Headset buyers guide

Digital Voice for Business

Wireless headsets

There's no need to be tied to your desk while having conversations with clients or colleagues, wireless headsets are versatile, reliable, and affordable. Your headset will notify you of incoming calls and allow you to answer and hang-up remotely with a simple tap, increasing productivity and making sure you don't miss any important calls.

Jabra Wireless for desk phones

Thanks to wireless DECT technology, your customer can roam up to 150 metres away from their desks without dropping a call. They can answer and end calls remotely while multitasking around the office. With up to 10 hours of battery life, they won't need to worry about running out of charge.

Jabra wireless (USB/Bluetooth)

The Jabra Evolve2 65 SE is engineered to keep you agile. Whether you're working in the office or on the go, background noise can really disrupt your flow. The Evolve2 is designed to effectively block out your surroundings giving you passive noise-cancellation like you've never experienced.

Work anywhere with superior wireless call performance.

Whatever style headset best suits you and your working environment, we have the option for you. Want to move from your desk while making a call? Then a wireless headset will set you free from your phone. Work in a noisy office or easily distracted by other conversations? Consider a two-ear headset that will help you focus.

Corded headsets

If you want the clearest call quality for the best value, then a corded headset might be the best option for you. Paired with the quick-disconnect cable supplied with your headset, you can easily move from your desk and reconnect when you return while keeping your headset on.

Jabra Corded for desk phones

Jabra designed the **Biz 2300** series to survive in a high performing contact center. Meaning fewer headset replacements, less downtime and lower total cost of ownership. Have clearer conversations and higher customer satisfaction rates with noise-cancelling mics and speakers, which filter out distracting background sounds.

Jabra Corded (USB)

The **Jabra Evolve2 30** has been engineered to keep you productive. From open office to open-plan living, Evolve2 30 opens doors to enhanced comfort, seamless collaboration and instant concentration anywhere, wherever you are and however you work. Lightweight, portable, reliable, comfortable – simple connectivity makes it easy to get started with your pc.
