Yealink T31G

IP Phone User guide

This user guide provides you with all the information you need to get the most from your phone. You must first set up your phone before you can use it. This doesn't take long as it is easy to do. Just follow the simple instructions in this user guide or the quick start guide included with the phone.

Got everything?

- IP Phone
- Handset
- Handset cord
- Ethernet cable
- Phone stand
- Quick start guide
- Power adapter (Optional)
- Wall mount bracket (Optional)

Need help?

If you have any problems setting up or using your Yealink IP Phone, please contact us on 0800 389 0537.

Emergency Calls – important information please note

Access to Emergency Services is provided but calls including emergency calls to 999 or 112, may not work in the event of power or broadband connection failure. These failures may be caused by reasons outside our control.

Phone Installation

1. Attach the stand

2. Connect the handset and optional headset

3. Connect the network and power

You have two options for power and network connections.

- AC power (Optional)
- Power over Ethernet (PoE)

AC Power (Optional)

To connect the AC power:

1. Connect the DC plug on the power adapter to the DC5V port on the phone and connect the other end of the power adapter into an electrical power outlet.
2. Connect the included or a standard Ethernet cable between the Internet port on the phone and the one on the wall or switch/hub device port.

Power over Ethernet

With the included or a regular Ethernet cable, the IP phone can be powered from a PoE-compliant switch or hub. To connect the PoE:

1. Connect the Ethernet cable between the Internet port on the phone and an available port on the in-line power switch/hub.

If in-line power switch/hub is provided, you don't need to connect the phone to the power adapter. Make sure the switch/hub is PoE-compliant. The phone can also share the network with another network device such as a PC (personal computer). It is an optional connection. Important, do not unplug or remove power to the phone while it is updating firmware and configurations.

Provisioning

Your Yealink T31G IP Phone will be pre-loaded with all the information it needs to automatically provision the BT Cloud Voice service once all the connections have been made.

1. Once connected to the network port that is providing network access the phone will do a series of firmware updates (please allow the phone time to complete).

- Your phone has provisioned correctly if this symbol is showing against the phones line key
- Your phone has not provisioned correctly if this symbol is showing against the phones line key

2. Once complete the phone will now show the line number against a line key as shown below.

Getting to know your phone

Hardware Component Instructions

The main hardware components of the Yealink T31G IP phone are the LCD screen and the keypad.

	Item	Description
1	Power Indicator LED	Indicates call status, message status and system status of the phone
2	Phone Screen	Shows a screen with backlight that enables you to view menus and data.
3	Line Keys	Accesses your phone lines and features.
4	Soft Keys	Label automatically to identify their context-sensitive features.
5	Navigation keys	Scroll through the displayed information. • Access History and Directory respectively.
	OK Key	Confirms actions or answers incoming calls.
6	Mute Key	Toggles and indicates mute feature.
7	Message Key	Accesses voice mails.
8	TRAN Key	Transfers a call to another party.
9	HEADSET Key	Toggles and indicates the headset mode.
10	Speakerphone Key	Toggles the hands-free speakerphone mode.
11	Redial Key	Redials a previously dialed number.
12	Volume Key	Adjusts the volume of the handset, headset and speaker. If you adjust the volume for handset or headset to level 12-15 on a call, on the next call the volume will be reduced back to level 11 to protect your hearing.
13	Keypad keys	Provides the digits, letters and special characters in context-sensitive applications.
14	Speaker	Provides ringer and hands-free (speakerphone) audio output.
15	Hookswitch Tab	Secures the handset in the handset cradle when the IP phone is mounted vertically.

	The shared/bridged line is registered successfully.
	Register failed
	Registering
	DND is enabled on this line
	Call forward is enabled on this line
	Received calls
	Placed calls
	Missed Calls
	Call Forward/Forwarded Calls

Phone Display (Views)

Idle Status

The idle screen displays the label of current account, time and date, and four soft keys.

Phone Status

You can view phone status via phone user interface or web user interface. Available information of phone status includes:

- Network status (e.g., IPv4 status, IP address mode, MAC address, LAN type, LAN IP and LAN mask).
- Phone status (e.g., device model, hardware version, firmware version and product ID).
- Account status (e.g., register status of SIP accounts).

To view the phone status via phone user interface:

Press  (the OK key), or press Menu->Status.

Press  or  to scroll through the list and view the specific information.

Time and Date

The time and date is set by the Cloud Voice Service however you can change the format within the phone preferences within basic settings.

Basic Call Features

Placing Calls

You can use your phone like a regular phone to place calls in many ways easily:

- Placing a Call from the Dialler
- Placing Multiple Calls
- Redialling a Number
- Placing an International Call
- Placing a Call from the Call History
- Placing a Call from the Directory
- Switching Among the Handset, Speakerphone and Headset Modes

Placing a Call from the Dialler:

The Dialler enables you to enter a number to place a call, and it displays a list of previously placed calls or contacts in your directory.

You can also select the desired contact from the search list, the placed call list or Directory.

1. Do one of the following:
 - Start typing a phone number.
 - Select the desired line key.
 - Pick up the handset, press the Speakerphone key  or the HEADSET key .
2. Enter a number or select a contact.
3. Select **Send**.

The phone supports to match the number to show the contact in Directory no matter what local format or international format is dialled.

Placing Multiple Calls:

When you are in a call, you can hold your current call and place a new call.

1. Do one of the following:
 - Select a line key. The active call is placed on hold.
 - Press the HOLD  key or **Hold** to place the original call on hold.
 - Select **New Call**.
2. Enter the desired number or select a contact.
3. Select **Send**.

Or

1. Press the HOLD  key or **Hold** to place the original call on hold.
2. Enter the desired number or select a contact.
3. Select **New Call**.

Redialling a Number:

The phone keeps a record of all the placed calls. You can recall the contact you recently called.

1. Press the REDIAL key .
2. Highlight the desired record, select **Send**.

Placing an International Call:

You can place calls to international phone numbers on your phone.

1. Long press digit key 0 on the phone keypad until the **plus sign (+)** appears.
2. Enter the phone number with the country code.
3. Select **Send**.

Placing a Call from the Call History:

You can place calls to contacts from the History list, which contains the calls that were recently placed, answered, missed, or forwarded.

1. Press **History** or navigate to **Menu->History**.
2. Select the desired call list.
3. Highlight a contact, and select **Send**.

Placing a Call from the Directory:

You can place a call to a contact directly from your directory.

1. Select **Phonebook** or navigate to **Menu->Directory->Phonebook**.
2. Highlight the desired contact, and select **Send**.

Switching Among the Handset, Speakerphone and Headset Modes:

You can select the desired mode before placing a call, or can alternate among Speakerphone, headset, and handset modes during a call.

When using the speakerphone or the headset, the LED indicator glows green.

1. During the call, pick up the handset, press the Speakerphone key  press the HEADSET key .

For example, if you're using the handset, press the HEADSET key  to switch to the headset, or press the Speakerphone key  to switch to the speakerphone.

Answering Calls

When you receive an incoming call, the phone rings and the screen displays the information of the incoming call. You can choose to answer the incoming call.

1. Pick up the handset.
2. Press the Speakerphone key .
3. Press the HEADSET key .
4. Press **Answer** or the line key that has the flashing green LED indicator.

Transferring Calls

You can transfer a call to another party in one of the three ways:

- Blind Transfer: Transfer a call directly to another party without consulting.
- Semi-Attended Transfer: Transfer a call when the target phone is ringing.
- Attended Transfer: Transfer a call with prior consulting.

To perform a blind transfer:

1. Press the **Tran** soft key during a call.
2. Enter the number you want to transfer the call to.
3. Press the **Tran** soft key to complete the transfer.
4. Then the call is connected to the number to which you are transferring.

To perform a semi-attended transfer:

1. Press the **Tran** soft key during a call.
2. Do one of the following:
 - Enter the number you want to transfer the call to.
 - Press the **Directory** soft key to find the number of directory or History.
3. Press  or  to dial out.
4. Press the **Tran** soft key to complete the transfer when receiving ringback.

To perform an attended transfer:

1. Press the **Tran** soft key during a call.
2. Do one of the following:
 - Enter the number you want to transfer the call to.
 - Press the **Directory** soft key to find the number of directory or History.
3. Press  or  to dial out.
4. After the party answers the call, press the **Tran** soft key to complete the transfer.
If you are using a handset, the transfer can be completed by hanging up the handset. You can cancel the transfer before the call is connected by pressing the **Cancel** soft key.

Ending Calls

1. If you are using the handset, press the **Cancel** soft key or hang up the handset.
2. If you are using the headset, press the **Cancel** soft key.
3. If you are using the speakerphone, press  or the **Cancel** soft key.

Conference Calls

1. When the first party answers the call, press the **Conf** soft key to place a new call.
2. The active call is placed on hold.
3. Enter the number of the second party and press , , or the **Send** soft key.
4. When the second party answers the call, press the **Conf** soft key again to join all parties in the conference.

During the conference call, you can do the following:

- Press the **Hold** soft key to place the conference on hold.
- Press the **Split** soft key to split the conference call into two individual calls.
- Press the **New Call** soft key to place a new call.
- Press the **Back** soft key to return to the previous interface.
- Press  to mute the conference call.
- Press the **Cancel** soft key to drop the conference call.

Do Not Disturb (DND)

Press the **DND** soft key when the phone is idle. The **DND** icon on the idle screen indicates that DND is enabled. Incoming calls will be rejected automatically and "**n Missed Call(s)**" ("n" indicates the number of the missed calls) will prompt on the LCD screen.

History

To view the call history:

1. Press the **History** soft key. The LCD screen displays all call records.
2. Press or to switch between All, Placed, Received, Missed and Forwarded call lists.
3. Press or to select the desired entry.
4. Press the Option soft key, and then select Detail from the prompt list.
The detailed information of the entry appears on the LCD screen.

To place a call from the call history list:

1. Press the **History** soft key.
2. Press or to switch between All, Placed, Received, Missed and Forwarded call lists.
3. Press or to select the desired entry.
4. Press the **Send** soft key.

Contact Directory

You can search for a contact, or simply dial a contact number from the corporate directory.

To access your corporate directory

1. Press **Directory** Softkey
2. Select the desired remote group, and then press the **Enter** soft key.
3. The phone connects to load the corporate directory, and then the corporate contact list appears on the LCD screen.
4. Press the **Back** soft key to back to the previous interface.
5. rector and tap the contact. From the contact's information screen, tap the contact's phone number.

To search for a contact in the corporate directory:

1. Press **Directory** Softkey
2. Select the desired remote group, and then press the **Enter** soft key to load the corporate directory.
3. Press the **Search** soft key.
4. Enter a few continuous characters of the contact name or continuous numbers of the contact number using the keypad.

The contacts whose name or phone number matches the characters entered will appear on the LCD screen. You can place a call from the result list.

Voicemail

When receiving a new voice mail, the phone will play a warning tone, and the power indicator LED will slow flash red. The LCD screen will display a prompt message and appear an icon.

1. When the phone user interface prompts receiving new voice mails and the power indicator LED slow flashes red, press or the **Connect** soft key to dial out the voice mail access code.
2. Follow the voice prompt to listen to voice mails.

Additional Features

The phone supports RJ9 headset, wireless headset adapter as accessories.

Please refer to the documentation of each accessory for details.

Headset

The phone supports RJ9 headset and wireless headset via EHS to handle calls.

To connect headset

1. RJ9 headset: Connect RJ9 headset to the headset port of your phone.
2. Wireless headset via EHS: Connect Yealink wireless headset adapter EHS40 to the USB port of your phone, connect your wireless headset to EHS40.

General information

Important

- Access to Emergency Services is provided but calls including emergency calls to 999 or 112, made via BT Cloud Voice may not work in the event of power or broadband connection failure. These failures may be caused by reasons outside our control. Location information, provided to the emergency services, is limited to the location details entered into the system; this may not be where the call was originated.

Safety information

- Do not open the handset or the base. This could expose you to high voltages or other risks. Contact your Service Provider for all repairs.

Cleaning

- Clean the handset and base with a damp (not wet) cloth, or an anti-static wipe. Never use household polish as this will damage the product. Never use a dry cloth as this may cause a static shock.

Environmental

- Do not expose to direct sunlight
- Do not stand your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces
- Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms
- Do not expose your product to fire, explosive or other hazardous conditions
- There is a slight chance your phone could be damaged by an electrical storm.

Product disposal instructions

- The symbol shown here and on the product means that the product is classed as Electrical or Electronic Equipment and should not be disposed with other household or commercial waste at the end of its working life.
- The Waste of Electrical and Electronic Equipment (WEEE) Directive (2002/96/EC) has been put in place to recycle products using best available recovery and recycling techniques to minimize the impact on the environment, treat any hazardous substances and avoid the increasing landfill.
- Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.

Guarantee

- Your IP Phone is guaranteed for a period of 12 months from the date of purchase.
- Subject to the terms listed below, the guarantee will provide for the repair of, or at the Service Provider or its agent's discretion, the option to replace the Phone or any

component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

The conditions of this guarantee are:

- The guarantee shall only apply to defects that occur within the 12-month guarantee period
- Proof of purchase is provided
- The equipment is returned to your Service Provider or its agent as instructed
- This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents
- This guarantee does not affect your statutory rights.

Date July 2023
