

Unlock the power of your team

Work together from anywhere with BT Cloud Work Meetings

Business thrives when you work together. Thanks to technology, it's easier than ever to 'meet' with colleagues and customers, and build visual relationships wherever you are in the world.

We'll help you roll all your communications services into one easy to manage, flexible and cost-effective solution. BT Cloud Work Meetings lets you host productive virtual meetings that feel as natural as the real thing. All that's missing is the handshake.

Collaboration, made simple

Cloud Work Meetings is a complete, cloud-based conferencing tool for business. With it you can:

- meet face-to-face with HD video
- share your desktops, applications, and whiteboards
- hold events completely online.

Connect with anyone. Anywhere. At any time.

We'll help you establish a long-term foundation for your voice, HD video and data communications. One that is simple, reduces costs and makes collaboration simple.

Work your way

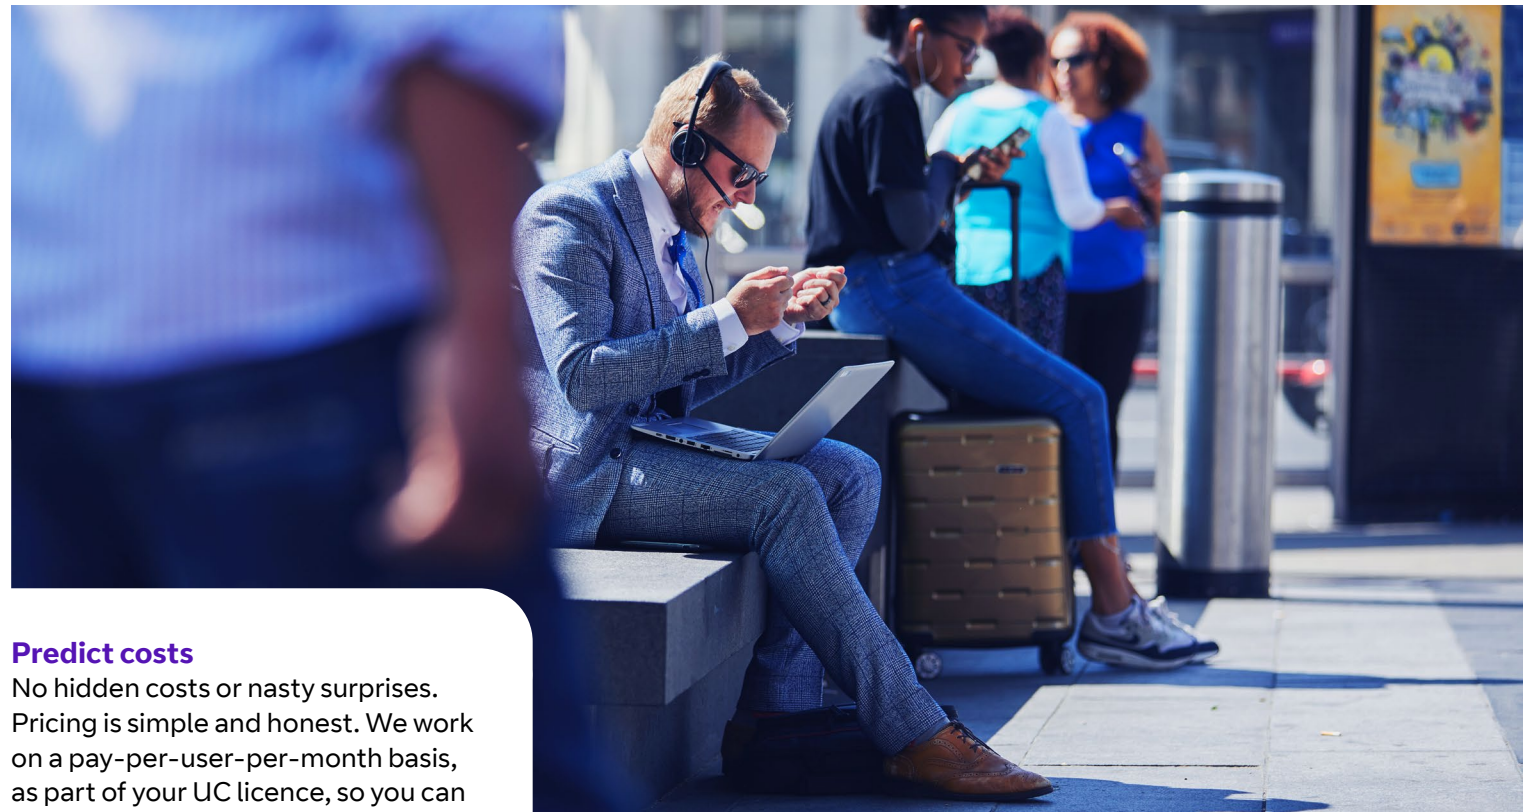

Make your web conferences more efficient, effective and productive using a range of unified communications tools.

Wow your customers

Deliver a truly personalised service. See customers in Edinburgh, London, Paris and Belfast, all in one morning. Trust us, they'll appreciate it.

Save time

Gone are the days of endless email chains. Make quicker decisions and manage your resources with HD Video Meetings and Presence.

Predict costs

No hidden costs or nasty surprises. Pricing is simple and honest. We work on a pay-per-user-per-month basis, as part of your UC licence, so you can predict your costs.

Save travel cost. And the planet.

No need to travel to meetings and events. Save on travel costs while slashing your carbon footprint.

Works with your favourite apps

Love Salesforce? Rely on Google or Office365? Cloud Work integrates with your existing applications, so your teams won't have to get to grips with anything new.

HD video meetings

Connect

- Connect from anywhere in the world using your computer, smartphone or tablet.
- Join a meeting from any web browser – no need to download the app.
- Work with up to 200 people. A larger crowd? Add on large meeting licences for up to 500 people.

Call

- Unlimited HD video conference calls.
- Set up video conference rooms.
- Dial in to connect to a meeting's audio.
- Use alongside your existing room systems with Cloud Work Room Connector.

Share

- Collaborate on documents in real time with desktop screen share.
- Make presentations, whiteboards, websites and files available to everyone from local and cloud services, including Box, Dropbox, Google Drive and OneDrive.

Schedule

- Start or schedule an online meeting directly from Microsoft Outlook or Gmail with a single click. Instantly sync with your BT Cloud Work app.
- Save and record meetings to replay later.

HD video conferencing

- Keep meetings organised and on track with active speaker recognition.
- Text chat for group discussions or one-to-one conversations.
- The host has full control with features such as participant mute/unmute, video start/stop, meeting lock, recording permissions and more.
- Participants can engage by raising a hand, muting their microphone, starting/stopping video and requesting remote control.

Screen sharing

- Create professional presentations from anywhere, on any device.
- Highlight talking points and write comments with advanced annotation tools.
- Let attendees control the mouse or keyboard, and copy and paste shared content.
- Work together using simultaneous annotation.
- Use the unique 'Safe Driving Mode' for smartphones to automatically disable video and outgoing audio, so you can listen to meetings without distraction.

Why BT?

Work faster

When you're holding a meeting or conference call, the last thing you need is your connection slowing you down.

With 4G in more places than any other UK network, and fuelling faster innovation with 5G, it's no wonder ours has been voted best network six years in a row. We also guarantee a 99.99 per cent SLA uptime for Cloud Work.

Work safer

Online security is key. When you choose us, you'll have our team of 2,500 security professionals and ethical hackers on your side. Every year, we defend our network from over 1.4 million cyberattacks, so you can trust us to keep you and your meetings safe.

Work together

Your business is safe in our hands. We're industry leaders in voice. We've got years of experience setting up phone systems. We'll work with you to unify your telephony and conferencing communications services into one easy to manage, flexible and cost-effective solution.
