Part C – Service Levels

15 On Time Delivery

15.1 On Time Delivery Service Level

BT aims to provide all SHDS Connect Services before the end of the agreed Contractual Delivery Date (the "On Time Delivery Service Level").

15.2 On Time Delivery Service Credit

15.2.1 If BT does not meet the On Time Delivery Service Level, an On Time Delivery Service Credit ("On Time Delivery Service Credit") will be applied in accordance with this Paragraph 15.2 and the table below:

Calculation of the On Time Delivery Service Credit	
Number of Business Days Beyond Contractual Delivery Date	% Reduction of the Connection Charge for the particular Service affected by the delay
1 – 10	5
11 – 15	10
16 – 20	15
More than 20	20

15.2.2 On Time Delivery Service Credits are available up to a maximum amount equal to 20 per cent of the total Connection Charges for the affected part of the Services.

15.2.3 If both of us have agreed a revised Contractual Delivery Date in writing, or if BT exercises BT's right to revise the Contractual Delivery Date as set out in Paragraph 15.3.1, the calculation of any On Time Delivery Service Credits will be made by reference to the revised Contractual Delivery Date.

15.2.4 Each Service, which is provided as part of the major construction work or multiple order scheme, will have an individual Contractual Delivery Date. Each Order is eligible under the scheme for reduction of Connection Charges should delivery take place later than the Contractual Delivery Date.

15.2.5 A multiple Order cannot exceed five Services per day.

15.2.6 Any reductions due as a result of the On Time Delivery Service Level will only apply to the Connection Charge and not to any Recurring Charges.

15.3 Exceptions

15.3.1 If you request a change to the Service or any part of the Service, then BT may change the Contractual Delivery Date to accommodate that change to the Service or part of the Service.

15.3.2 The On-Time Delivery Service Level does not apply to shifts, upgrades and/or changes to the Service, unless these require the installation of new components and have an agreed delivery date, in which case the Contractual Delivery Date will be that agreed delivery date.

15.3.3 BT may expedite delivery of the Service for operational reasons or in response to a request from you, but this will not revise the Contractual Delivery Date.

16 Service Availability

16.1 Availability Service Level

16.1.1 From the Service Start Date, BT will make the Service available to you, however in the event of a reported Incident which qualifies as an Eligible Failure and depending on the number of Eligible Failures in a year measured from the Contractual Delivery Date and each anniversary thereafter ("Availability Service Level"), BT will reduce the annual Recurring Charge (irrespective of whether the Service is billed annually or quarterly) in accordance with the table below (up to a maximum amount equal to 35 per cent of the annual Recurring Charges for the affected Service:

Number of Eligible Failures in a year measured from the CDD and each anniversary thereafter (12 month cycle)	Reduction of annual Recurring Charge for the affected Service %
1	5
2 – 3	10
4	25
5 or more	35

16.1.2 Where there is an Eligible Failure, BT will measure and record any Eligible Failure for a Site or Circuit starting from when you report an Incident, and ending when BT closes the Ticket for that related Incident.

- 16.1.3 An Eligible Failure for the purposes of the Availability Service Level applies to Services on Total Care (i.e. all Circuit types set out in Paragraph 16.1.6).
