## Getting started with Carbon Network Dashboard

Make informed, sustainable decisions based on real-time energy and carbon footprint data.

## Setting up the Carbon Network Dashboard

- Speak with your account team to align the Carbon Network Dashboard (CND) with your existing BT Managed account. Ensure access is granted for the CND report packs, featuring preconfigured reports tailored to your needs.
- 2. Login to My Account, click on Applications and launch NPMD Data Insight Reporting.

- 3. Ensure all the necessary devices information is already onboarded and available in BT Inventory systems.
- 4. Access granular carbon data, executive-level summaries, and energy optimization insights—integrated seamlessly within the CND Dashboards.
