A note on 'you'

'You' and 'your' mean the Customer.

Words defined in the General Terms

Words that are capitalised but have not been defined in this Schedule have the meanings given to them in the General Terms.

Part A – The Voice Calling with Microsoft Teams Service

1 Service Summary

BT will provide you with professional and in-life managed services in respect of Microsoft Teams, as well as the ability to make and receive external calls, comprising:

- 1.1 the Standard Service Packages; and
- 1.2 any of the Service Options as set out in any applicable Order up to the point of the Service Management Boundary as set out in Paragraph 0 ("**Voice Calling with Microsoft Teams Service**").

2 Standard Service Packages

- 2.1 Subject to Paragraph 2.2, BT will provide you with one or a combination of the following standard service packages ("**Standard Service Packages**") in accordance with the table below and the details as set out in any applicable Order:

Standard Service Package		Collaboration Only	Teams with Microsoft Calling Plans	Managed Teams as a Service	Direct Routing
Components of Standard Service Packages	Customer Onboarding and Service Transition	Y	Y	Y	Y
	BT Calling Plans	N	N	Y	Y
	Microsoft Calling Plans	N	Y	N	N
	BT Service Desk	Y	Y	Y	Y
	Voice Service Requests	N	Y	Y	N
	Meeting Service Requests	Y	Y	Y	N
	Teams Dashboard and Analytics	Y	Y	Y	Y

You will only be able to order Direct Routing as a standalone Standard Service Package. Direct Routing cannot be ordered or used in combination with any other Standard Service Packages provided under this Schedule.

Components of Standard Service Packages

- 2.1.1 **Customer Onboarding and Service Transition:** BT will provide Professional Services in respect of onboarding and building the Voice Calling with Microsoft Teams Service to your specified and pre-agreed requirements as set out in your Order. This may include onboarding all in-scope Users, as well as configuration and go-live of all other related in-scope Voice Calling with Microsoft Teams Service Components of Standard Service Packages.
- 2.1.2 **BT Calling Plans:** BT will provide the ability to make external calls through BT's calling platforms on a suitable calling plan.
- 2.1.3 **Microsoft Calling Plans:** The Supplier will provide the ability to make external calls through the Supplier's own calling platform.

Voice Calling with Microsoft Teams Schedule

- 2.1.4 **BT Service Desk:** BT will provide a support desk for the Customer Contact to report Incidents 24x7x365, and BT will provide you with a Ticket as set out in Paragraph 9. The BT Service Desk uses telephone, email and an online incident management portal to raise and track Incidents and service requests.
- 2.1.5 **Voice Service Requests:** The Customer Contact can raise Voice Service Requests to the BT Service Desk, and following receipt of the request BT will endeavour to complete within the target times listed in the table set out below in Paragraph 2.1.5.1.
- 2.1.5.1 The following Voice Service Requests are included in the base Charges for the Teams with Microsoft Calling Plans and Teams as a Managed Service Standard Service Packages. The target completion times are not Service Levels:

Feature	Description	Examples of requests	Target Completion Time
Microsoft calling plans	With these plans, Users can make calls over PSTN. Note: Customers need the appropriate licenses to use these calling plans. Note: Bulk means up to 50 DDIs.	<ul style="list-style-type: none"> • Assign direct inward dialing (DID) (this is sometimes referred to as DDI, direct dial-in). • Remove DID. • Add emergency location. • Assign emergency location. • Bulk assign DID. • Bulk remove DID. • Bulk assign emergency location. 	3 Business Days
DID Number Management	Managing DID ranges for Direct Routing involves the allocation of DID's to new Users, recovering numbers from leavers, and reporting on DID range capacity.	BT will: <ul style="list-style-type: none"> - Assign a number to a User - Recover DDIs from leavers - Report on allocated numbers (monthly) - Alert when agreed capacity limits are reached - Add new ranges when ordered by the Customer 	3 Business Days
Emergency Policies	Emergency calling policies are used to control how Users can use dynamic emergency calling features. You can use the global (org-wide default) policy and customize it or create one or more custom policies for those people within your organization.	You can set emergency calling policies for your Sites to support security or facilities management teams: <ul style="list-style-type: none"> • Notification only: a Teams chat message is sent to the Users and groups that you specify. • Conferenced in but are muted: a Teams chat message is sent to the Users and groups that you specify and they can listen (but not participate) in the conversation between the caller and the public safety answering point (PSAP) operator Note: emergency policies will be agreed during voice strategy. Note: This requires that location services are enabled for the Customer, and the User is one of the enabled locations.	3 Business Days
Dialplan	Dialplans consist of normalisation rules that translate numbers entered or displayed by Users into E164 that can be routed using Microsoft phone system.	Level dialplans consist of: <ul style="list-style-type: none"> - Create dialplan configuration - Edit existing dialplan - Delete dialplan - Emergency services (for the country) - Mobile networks - Toll free - National numbers - International numbers 	5 Business Days

Voice Calling with Microsoft Teams Schedule

Feature	Description	Examples of requests	Target Completion Time
Modify Existing Voice Policy	<p>These policies can control how Users can make calls over PSTN and the associated number masking</p> <p>Note: Customers need the appropriate licenses to use these calling plans.</p>	<ul style="list-style-type: none"> • Caller ID policy <ul style="list-style-type: none"> - Edit existing caller ID policy. - Delete caller ID policy. • Configure trunk number masking: <ul style="list-style-type: none"> - create number mask - Edit number mask. - Delete number mask. • Modifying trunk headers: <ul style="list-style-type: none"> - Create header definition. - Edit header definition. - Delete header definition. 	3 Business Days
Call queues	<p>Call queues are used to redirect people that call in to the correct person or location. When people call in to a call queue, a greeting will be played, the person will be placed on hold, and music will be played for them. While the person is on hold, the call will be redirected to the next available call agent.</p> <p>Call queues require resource accounts, and will consume a virtual phone license.</p>	<p>Cloud call queues can provide:</p> <ul style="list-style-type: none"> - A pre-recorded greeting message. - Music while people are waiting on hold. - Redirecting calls to call agents in mail-enabled distribution lists and security groups. - Setting different parameters such as queue maximum size, timeout, and call handling options. - Shared voicemail for callers to leave a message for an organization <p>Call queues can be requested via a simple request form.</p>	5 Business Days
Auto attendants	<p>Auto attendants let people who call in navigate a menu system so they can be connected with the right department, person, or the operator in the Customer's organization. When the Customer creates an auto attendant, the Customer may choose the greetings, set up the menus, and then choose how to redirect calls</p>	<p>A cloud auto attendant has the following features:</p> <ul style="list-style-type: none"> - It can provide corporate or informational greetings. - It can provide custom corporate menus. You can customize these menus to have more than one level. - It provides directory search that enables people who call in to search the organization's directory for a name. - It enables someone who calls in to reach or leave a message for a person in your organization. - It supports multiple languages for prompts, text-to-speech, and speech recognition. - It supports specifying holidays and business hours. - It supports transferring call to an operator, other users, call queues, and auto attendants. - It supports shared voicemail for callers to leave a message for an organization. <p>AutoAttendants can be requested via a simple request form.</p>	5 Business Days
Holiday Set	<p>Holidays are used to set specific dates and times that the Customer's organisation will be taking time off away work and won't be available during business times. The holidays created here can then be linked</p>	<p>BT can:</p> <ul style="list-style-type: none"> - Create a new Holiday Set - Edit an existing Holiday Set - Apply a Holiday Set to an existing AutoAttendant 	3 Business Days

Feature	Description	Examples of requests	Target Completion Time
	to auto attendants that are created within the Customer's organisation.		
Call Park	Call park lets people put a call on hold and transfer it to other people within the Customer's organization. Call park policies let the Customer control which Users are call park enabled and make other call park setting changes for them.	Some of the common scenarios for using call park are: <ul style="list-style-type: none"> - A receptionist parks a call for someone working in a factory. The receptionist then announces the call and the code number over the public address system. - A User parks a call on a mobile device because the device battery is running out of power. The User can then enter the code to retrieve the call from a Teams desk phone. - A support representative parks a customer call and sends an announcement on a Teams channel for an expert to retrieve the call and help the customer. 	3 Business Days
Network and quality of service	Administrators can restrict real-time media traffic to specific ports.	<ul style="list-style-type: none"> • Add or remove quality of service markers. • Set port range for audio traffic. • Set port range for video traffic. • Set port range for screen sharing traffic. 	3 Business Days
Update subnets on request	The BT Service Desk can use this feature to change which subnets are monitored by the call quality dashboard. Reporting labels are used in the Customer's organization to indicate the physical locations of offices, buildings, or organizational sites.	<ul style="list-style-type: none"> • Add subnet to the call quality dashboard. • Remove subnet from the call quality dashboard. 	3 Business Days

2.1.6 **Meeting Service Requests:** The Customer Contact can raise Meeting Service Requests to the BT Service Desk, and following receipt of request BT will endeavour to complete within the target times listed in the table set out below in Paragraph 2.1.6.1.

2.1.6.1 The following Meeting Service Requests are included in the base Charges for the Collaboration Only, Teams with Microsoft Calling Plans and Teams as a Managed Service Standard Service Packages:

Feature	Description	Examples of requests	Target Completion Time
Devices	The BT Service Desk can update settings to control how meeting room devices operate.	<ul style="list-style-type: none"> • Require secondary authentication. • Require a PIN. • Allow devices to send messages. 	3 Business Days
Advanced guest access	With this feature, people outside the Customer's organisation can access Teams and Channels.	<ul style="list-style-type: none"> • Allow guests to make private calls, or restrict them. • Allow guests to use IP Video, or restrict them. • Allow guests to share their entire screen, or restrict them. • Allow guests to share a single app screen, or restrict them. • Allow guests to use Meet Now, or restrict them. • Allow guests to edit sent messages, or restrict them. • Allow guests to delete sent messages, or restrict them. • Allow guests to use Giphy, or restrict them. • Prevent guests from using Giphy content rated strict or moderate. 	3 Business Days

Feature	Description	Examples of requests	Target Completion Time
		<ul style="list-style-type: none"> • Allow guests to use memes in conversations, or restrict them. • Allow guests to use stickers in conversations, or restrict them. 	
Meeting General Options	Administrators can control media options for meetings.	<ul style="list-style-type: none"> • Allow or restrict Meet Now. • Allow or restrict the Outlook add-in. • Allow or restrict Channel meeting scheduling. • Allow or restrict private meetings. 	3 Business Days
Meeting audio and video options	Administrators can control media options for meetings.	<ul style="list-style-type: none"> • Allow or restrict transcriptions. • Allow or restrict cloud recording. • Allow or restrict IP video. • Restrict media rate bandwidth. 	3 Business Days
Meeting participants and guests	Administrators can put policies in place to control how anonymous people join meetings.	<ul style="list-style-type: none"> • Allow or restrict anonymous dial out. • Allow anonymous users to start meetings, or restrict them. • Allow or restrict the automatic admission of users. • Allow or restrict anonymous join. 	3 Business Days
Meeting email invite customization	Administrators can customise Outlook meeting invites with logos, legal disclaimer and URLs. Note: This feature uses files hosted on a website accessible by those who receive meeting invites.	<ul style="list-style-type: none"> • Add or remove logo. • Add or remove legal URL. • Add or remove help URL. • Add or remove footer. 	3 Business Days
Live events	This feature allows large groups of people to meet. Organisers can broadcast video and meeting content to large online audiences.	<ul style="list-style-type: none"> • Allow scheduling. • Allow transcription. • Restrict who can join. • Decide recording settings. 	3 Business Days
PSTN dial in number	With these conference bridges, participants can dial into meetings using a phone.	<ul style="list-style-type: none"> • Add or remove toll number. • Add or remove toll-free number. • Enable or disable meeting entry announcements. • Force participants to announce their name on entry. • Set PIN length. • Automate the announcement of names or tones on entry. 	3 Business Days

Feature	Description	Examples of requests	Target Completion Time
Teams Conferencing Users	Administrators can use this feature to change User settings. They can enable and disable Users and change conference, PIN and coexistence settings.	<ul style="list-style-type: none"> • Enable Users. • Disable Users. • Reset PIN. • Reset conference ID. • Assign policy. • Change co-existence mode. • Change default dial in conferencing number. • Change dial out from meetings setting. 	3 Business Days

2.1.7 **Teams Dashboard and Analytics:** The Customer will have access to several analytical dashboards to provide useful metrics. Those dashboards may include Voice Quality of Experience, PowerSuite, Call Quality Dashboard (“**CQD**”), and Call Analytics.

2.2 All Service Packages are subject to BT assessing the complexity and size of your service requirements. These requirements, as well as any assumptions, dependencies and associated Charges, will be set out in your Order.

3 Service Options

BT will provide you with any of the following options (“**Service Options**”) in respect of the Voice Calling with Microsoft Teams Service in accordance with the details as set out in that Order:

3.1 additional Professional Services according to your requirements; and

3.2 Non-Standard Service Requests, which may include the following:

3.2.1.1 Where Customer takes a Teams with Microsoft Calling Plans or Teams as a Managed Service Standard Service Package, the Customer Contact may raise a Non-Standard Service Request and BT will endeavour to complete within the target times listed in the table below. These target times are not Service Levels:

Feature	Description	Examples of requests	Target Completion Time
Emergency Call Routing	Emergency call routing policies are used to set up emergency numbers for direct routing and then specify how those emergency calls are routed.	Emergency Location Identification Numbers (ELIN) require an additional product (ELIN Gateway or SIP service). These are available on request.	Typically implemented within 5 Business Days / according to an agreed schedule Complex change request initial planning meeting/call within 5 Business Days
Direct Routing Voice Policy	Microsoft phone system has a routing mechanism that allows a call to be sent to a specific session border controller (SBC) based on: - The called number pattern - The called number pattern plus the specific User who makes the call SBCs can be designated as active and backup. When the SBC that is configured as active is not available for a specific call route, then the call will be routed to a backup SBC.	Voice policies can be created, edited and amended and applied to Users. Voice routing is made up of the following elements: - Voice routing policy – a container for PSTN usages, which can be assigned to a User or to multiple Users. - PSTN usages – a container for voice routes and PSTN usages, which can be shared in different voice routing policies. - Voice Routes – a number pattern and set of online PSTN gateways to use for calls where the calling number matches the pattern. - Online PSTN gateway - a pointer to an SBC that also stores the configuration that is applied when a call is placed through the SBC, such as forward P-Asserted-Identity (PAI) or Preferred Codecs; can be added to voice routes.	Typically implemented within 5 Business Days / according to an agreed schedule Complex change request initial planning meeting/call within 5 Business Days

Voice Calling with Microsoft Teams Schedule

Feature	Description	Examples of requests	Target Completion Time
		Note: Customers need the appropriate licenses to use these calling plans. Note: Direct routing high level designs will be agreed during voice strategy.	
Direct Routing SBC Setup	Microsoft phone system direct routing enables you to connect your on-premises telephony infrastructure to Microsoft Teams.	To enable direct routing for an SBC, BT will: - connect the SBC with Microsoft phone system and validate the connection - enable Users for direct routing, voice, and voicemail - Configure voice routing - Translate numbers to an alternate format Note: Requires remote SBC/voice gateway setup - see separate service request. Note: Direct routing high level designs will be agreed during voice strategy.	Typically implemented within 5 Business Days / according to an agreed schedule Complex change request initial planning meeting/call within 5 Business Days
Complex Call Management	Auto attendants and call queues can be designed and implemented together to deliver complex call management usecases including multi-level IVRs, self managed Team agent management and call escalation.	BT can help design the complex call management options on request.	Typically implemented within 5 Business Days / according to an agreed schedule Complex change request initial planning meeting/call within 5 Business Days
Remote SBC/Voice Gateway Setup	Adding SBC/Voice gateway to Customer Site.	Remote configuration of the SBC/voice gateway.	Typically implemented within 5 Business Days / according to an agreed schedule Complex Change Request initial planning meeting/call within 5 Business Days
Remote Analogue Gateway Setup	Adding analogue gateway to Customer Site.	Remote configuration of the analogue gateway.	Typically implemented within 5 Business Days / according to an agreed schedule Complex Change Request initial planning meeting/call within 5 Business Days

3.2.2 Where Customer takes a Collaboration Only, Teams with Microsoft Calling Plans or Teams as a Managed Service Standard Service Package, the Customer Contact may raise a Non-Standard Service Request and BT will endeavour to complete within the target times listed in the table below. These target times are not Service Levels:

Feature	Description	Examples of requests	Target Completion Time

Note: The Customer has to purchase or configure the Services they want to use. The BT Service Desk won't be able to operate the web service themselves.	<ul style="list-style-type: none"> • Add or remove a connector. 	3 Business Days

4 Service Management Boundary

- 4.1 BT will provide and manage the Voice Calling with Microsoft Teams Service in accordance with Parts B and C of this Schedule and as set out in any applicable Order ("**Service Management Boundary**").
- 4.2 BT will have no responsibility for the Voice Calling with Microsoft Teams Service outside the Service Management Boundary.

- 4.3 BT does not make any representations, whether express or implied, about whether the Voice Calling with Microsoft Teams Service will operate in combination with any Customer Equipment or other equipment and software.
- 4.4 BT will have no responsibility for the availability or functionality of Microsoft Teams itself.

5 Associated Services

- 5.1 You will have the following services in place that will connect to the Voice Calling with Microsoft Teams Service and are necessary for the Voice Calling with Microsoft Teams Service to function and will ensure that these services meet the minimum technical requirements that BT specifies:
 - 5.1.1 Microsoft Teams procured from either BT, the Supplier or a third party;
 - 5.1.2 if you have a Standard Service Package that contains the ability to make external calls through the Supplier's calling platform, you must purchase appropriate calling plans from the Supplier; and
 - 5.1.3 if you have a Service Package that contains the ability to make external calls through BT's calling platform, you will enter into a contract for a suitable calling plan through either the G-SIP Schedule or One Voice Schedule.(each an "Enabling Service").
- 5.2 If BT provides you with any services other than the Voice Calling with Microsoft Teams Service (including, but not limited to any Enabling Service) this Schedule will not apply to those services and those services will be governed by their separate terms.

6 Specific Terms

6.1 Changes to the Contract

- 6.1.1 BT may propose changes to this Schedule or the Charges (or both) by giving you at least 60 days prior written Notice ("**Notice to Amend**").
- 6.1.2 Within 14 days of any Notice to Amend, you will provide BT with written Notice:
- 6.1.3 agreeing to the changes BT proposed;
- 6.1.4 requesting revisions to the changes BT proposed, in which case both of us will enter into good faith negotiations for the remainder of that Minimum Period of Service or Renewal Period, as applicable, and, if agreement is reached, the agreed changes will apply from the beginning of the following Renewal Period; or
- 6.1.5 terminating the Contract at the end of the Minimum Period of Service or Renewal Period, as applicable in accordance with the terms of this Contract.
- 6.1.6 If we have not reached agreement in accordance with Paragraph **Error! Reference source not found.** by the end of the Minimum Period of Service or the Renewal Period, the terms of this Schedule will continue to apply from the beginning of the following Renewal Period unless you give Notice in accordance with Paragraph 6.1.5 or BT may give Notice of termination, in which case BT will cease delivering the Voice Calling with Microsoft Teams Service at the time of 23:59 on the last day of the Minimum Period of Service or subsequent Renewal Period as applicable.

6.2 Minimum Period of Service and Renewal Periods

- 6.2.1 BT will provide you with the Voice Calling with Microsoft Teams Service for the Minimum Period of Service.
- 6.2.2 Unless one of us has given 60 days written Notice to the other of an intention to terminate the Voice Calling with Microsoft Teams Service before the expiry of the Minimum Period of Service, BT will continue to provide the Voice Calling with Microsoft Teams Service on a rolling 60 day basis and each of us will continue to perform our obligations in accordance with the Contract ("**Renewal Period**").
- 6.2.3 During the Renewal Period, you may terminate the Voice Calling with Microsoft Teams Service on 60 days written Notice.
- 6.2.4 If either of us gives Notice to the other of an intention to terminate the Voice Calling with Microsoft Teams Service, BT will cease delivering the Voice Calling with Microsoft Teams Service at the time of 23:59 on the last day of the Minimum Period of Service or subsequent Renewal Period.

6.3 Termination for Convenience

- 6.3.1 For the purposes of Clause 17 of the General Terms, either of us may, at any time after the Service Start Date and without cause, terminate the Voice Calling with Microsoft Teams Service by giving 60 days' Notice to the other.
- 6.3.2 If you terminate the Voice Calling with Microsoft Teams Service in accordance with Paragraph 6.3.1 during the Minimum Period of Service, you will be required to pay Termination Charges in accordance with Paragraph 6.9.

6.4 Customer Committed Date

- 6.4.1 If you request a change to the Voice Calling with Microsoft Teams Service or any part of the Voice Calling with Microsoft Teams Service, then BT may revise the Customer Committed Date to accommodate that change.
- 6.4.2 BT may expedite delivery of the Voice Calling with Microsoft Teams Service for operational reasons or in response to a request from you, but this will not revise the Customer Committed Date.

6.5 Service Transition

- 6.5.1 If you are transitioning your existing services to BT, you will provide any information or access BT reasonably requests within a reasonable period of time.

6.6 Access to Emergency Services

- 6.6.1 BT will not provide the ability for Users to call the emergency services by dialling "999" or "112" and you will make alternative arrangements for Users, including the maintenance of a fixed telephone number.

6.7 IP Addresses, Domain Names and Telephone Numbers

- 6.7.1 All IP Addresses and Domain Names made available with the Voice Calling with Microsoft Teams Service will at all times remain BT's property or the property of BT's suppliers and are non-transferable.
- 6.7.2 All of your rights to use IP Addresses or Domain Names will cease on termination or expiration of the Voice Calling with Microsoft Teams Service.
- 6.7.3 BT cannot ensure that any requested Domain Name is available from or approved for use by the applicable Regional Internet Registry and BT has no liability for any failure in the Domain Name registration, transfer or renewal process.
- 6.7.4 You warrant that you are the owner of, or are authorised by the owner of, the trade mark or name that you wish to use as a Domain Name.
- 6.7.5 You will pay all fees associated with registration and maintenance of your Domain Name, and will reimburse BT for any and all fees that BT pays to any applicable Regional Internet Registry, and thereafter pay such fees directly to the applicable Regional Internet Registry.
- 6.7.6 You will not own any telephone number related to the Voice Calling with Microsoft Teams Service and, apart from your right to number portability where you change communications provider, all your rights to use telephone numbers will cease on termination or expiration of the Voice Calling with Microsoft Teams Service.

6.8 Invoicing

- 6.8.1 Unless set out otherwise in any applicable Order, BT will invoice you for the following Charges in the amounts set out in any applicable Order:
 - (a) Installation Charges, on the Service Start Date, or where the installation period is estimated to be longer than one month, monthly in arrears starting from when you place an Order until the Service Start Date;
 - (b) Recurring Charges, except Usage Charges, monthly in advance on the first day of the relevant month and for any period where the Voice Calling with Microsoft Teams Service is provided for less than one month, the Recurring Charges will be calculated on a daily basis;
 - (c) Usage Charges, monthly in arrears on the first day of the relevant month, calculated at the then current rates;
 - (d) Professional Services Charges;
 - (e) De-installation Charges within 60 days of de-installation of the Voice Calling with Microsoft Teams Service; and
 - (f) any Termination Charges incurred in accordance with Paragraph 6.9 upon termination of the relevant Service.
- 6.8.2 BT may invoice you for any of the following Charges in addition to those set out in any applicable Order:
 - (a) Charges for investigating Incidents that you report to BT where BT finds no Incident or that the Incident is caused by something for which BT is not responsible under the Contract;
 - (b) Charges for commissioning the Voice Calling with Microsoft Teams Service in accordance with Paragraph 7.1 outside of Business Hours;
 - (c) Charges for expediting provision of the Voice Calling with Microsoft Teams Service at your request after BT has informed you of the Customer Committed Date; and
 - (d) any other Charges as set out in any applicable Order or the BT Price List or as otherwise agreed between both of us.

6.9 Termination Charges

- 6.9.1 **Termination Charges**

If you terminate the Contract or the Voice Calling with Microsoft Teams Service for convenience in accordance with Clause 17 of the General Terms you will pay BT:

- (a) all outstanding Charges or payments due and payable under the Contract;
- (b) De-installation Charges;
- (c) any other Charges as set out in any applicable Order; and
- (d) any Charges reasonably incurred by BT from a supplier as a result of early termination of the Voice Calling with Microsoft Teams Service.

6.9.2 In addition to the Charges set out at Paragraph 6.9.1 above, if you terminate during the Minimum Period of Service, you will pay BT 100 per cent of the Recurring Charges in respect of any Minimum Revenue Commitment for the remaining months of the Minimum Period of Service.

6.10 **PCI DSS Compliance Obligations**

6.10.1 The Voice Calling with Microsoft Teams Service is not compliant with PCI DSS and you will not use the Voice Calling with Microsoft Teams Service for the processing, storage or transmission of any Cardholder Data or any data that is subject to PCI DSS.

6.10.2 You will indemnify BT for any Claims, losses, costs or liabilities that it incurs as a result of you storing, processing or transmitting data that is subject to PCI DSS.

Part B – Service Delivery and Management

7 BT's Obligations

7.1 Commissioning of the Service

Before the Service Start Date, BT will:

- 7.1.1 Provide you with contact details for the Service Desk;
- 7.1.2 in accordance with Paragraph 2.2, assess your requirements for the Voice Calling with Microsoft Teams Service and work with you to create and implement a delivery plan for the Teams Service;
- 7.1.3 configure the Voice Calling with Microsoft Teams Service;
- 7.1.4 conduct a series of standard tests on the Voice Calling with Microsoft Teams Service to ensure that it is configured correctly;
- 7.1.5 connect the Voice Calling with Microsoft Teams Service to each Enabling Service; and
- 7.1.6 on the date that BT has completed the activities in this Paragraph 7.1, confirm to you the Service Start Date.

7.2 During Operation

On and from the Service Start Date, BT:

- 7.2.1 may carry out Maintenance from time to time and will use reasonable endeavours to inform you at least five Business Days before any Planned Maintenance on the Voice Calling with Microsoft Teams Service or the BT Network, however, BT may inform you with less notice than normal where Maintenance is required in an emergency.
- 7.2.2 BT will comply with all reasonable health and safety rules and regulations and reasonable security requirements that apply at the Site(s) and that you have notified to BT in writing, but BT will not be liable if, as a result of any such compliance, BT is in breach of any of its obligations under this Contract.

7.3 The End of the Service

On termination of the Voice Calling with Microsoft Teams Service by either of us, BT will provide configuration information relating to the Voice Calling with Microsoft Teams Service in a format that BT reasonably specifies to allow any software or other BT applications to be uninstalled.

8 Your Obligations

8.1 Service Delivery

Before the Service Start Date and, where applicable, throughout the provision of the Voice Calling with Microsoft Teams Service, you will:

- 8.1.1 provide BT with administrative access to the Microsoft Teams environment used in relation to the Voice Calling with Microsoft Teams Service;
- 8.1.2 provide BT with all reasonably requested information as requested by BT;
- 8.1.3 provide BT with access to any Site(s) during Business Hours, or as otherwise agreed, to enable BT to set up, deliver and manage the Voice Calling with Microsoft Teams Service;
- 8.1.4 provide BT with Notice of any health and safety rules and regulations and security requirements that apply at the Site(s);

8.2 During Operation

On and from the Service Start Date, you will:

- 8.2.1 ensure that Users report Incidents to the Customer Contact and not to the Service Desk;
- 8.2.2 ensure that the Customer Contact will take Incident reports from Users and pass these to the Service Desk using the reporting procedures agreed between both of us, and is available for all subsequent Incident management communications;
- 8.2.3 monitor and maintain any Customer Equipment connected to the Voice Calling with Microsoft Teams Service or used in connection with a Voice Calling with Microsoft Teams Service;
- 8.2.4 ensure that any Customer Equipment that is connected to the Voice Calling with Microsoft Teams Service or that you use, directly or indirectly, in relation to the Voice Calling with Microsoft Teams Service is:
 - (a) adequately protected against viruses and other breaches of security;
 - (b) technically compatible with the Voice Calling with Microsoft Teams Service and will not harm or damage the BT Network, or any of BT's suppliers' or subcontractors' network or equipment; and

(c) approved and used in accordance with relevant instructions, standards and Applicable Law and any safety and security procedures applicable to the use of that Customer Equipment;

8.2.5 immediately disconnect any Customer Equipment, or advise BT to do so at your expense, where Customer Equipment:

- (a) does not meet any relevant instructions, standards or Applicable Law; or
- (b) contains or creates material that is in breach of the Acceptable Use Policy and you are contacted by BT about such material,

and redress the issues with the Customer Equipment prior to reconnection to the Voice Calling with Microsoft Teams Service;

8.2.6 distribute, manage and maintain access profiles, passwords and other systems administration information relating to the control of Users' access to the Voice Calling with Microsoft Teams Service;

8.2.7 ensure the security and proper use of all valid User access profiles, passwords and other systems administration information used in connection with the Voice Calling with Microsoft Teams Service and:

- (a) immediately terminate access for any person who is no longer a User;
- (b) inform BT immediately if a User's ID or password has, or is likely to, become known to an unauthorised person, or is being or may be used in an unauthorised way;
- (c) take all reasonable steps to prevent unauthorised access to the Voice Calling with Microsoft Teams Service;
- (d) satisfy BT's security checks if a password is lost or forgotten; and
- (e) change any or all passwords or other systems administration information used in connection with the Voice Calling with Microsoft Teams Service if BT requests you to do so in order to ensure the security or integrity of the Voice Calling with Microsoft Teams Service.

8.3 The End of the Service

On termination of the Voice Calling with Microsoft Teams Service by either of us, you will disconnect any Customer Equipment from BT Equipment located at the Site(s);

9 Notification of Incidents

Where you become aware of an Incident:

9.1 the Customer Contact will report it to the Service Desk;

9.2 BT will give you a Ticket;

9.3 BT will inform you when it believes the Incident is cleared and will close the Ticket when:

9.3.1 you confirm that the Incident is cleared within 24 hours after having been informed; or

9.3.2 BT has attempted unsuccessfully to contact you, in the way agreed between both of us in relation to the Incident, and you have not responded within 24 hours following BT's attempt to contact you.

9.4 If you confirm that the Incident is not cleared within 24 hours after having been informed, the Ticket will remain open, and BT will continue to work to resolve the Incident.

10 Incident Management

10.1 After the Customer Contact has reported an Incident, BT will endeavour to resolve an Incident relating to the Voice Calling with Microsoft Teams Service within the target time listed in the table below:

Incident Priority	Description	Target for resolving Incidents	Target for responding to Customers	How often BT will update Customer
Priority 1	Significant loss or degradation of service Critical business impact Typically affects all Users.	4 Business Hours	1 Business Hour	Every Business Hour
Priority 2	Moderate loss or degradation of services Moderate business impact Work is impaired, but can reasonably continue	24 Business Hours	1 Business Hour	Every 2 Business Hours

Voice Calling with Microsoft Teams Schedule

Incident Priority	Description	Target for resolving Incidents	Target for responding to Customers	How often BT will update Customer
	Typically affects a large group of Users, or degrades all User's service.			
Priority 3	Minor or no impediments Minimum business impact Typically affects fewer than ten Users.	72 Business Hours	4 Business Hours	Every 4 Business Hours
Priority 4	General service query or request for information. BT might ask Customers to raise a request for change, instead.	n/a	24 Business Hours	n/a

10.2 The target times listed in the table set out in Paragraph 10.1 are not Service Levels.

10.3 The target times listed in the table set out in Paragraph 10.1 do not apply where an Incident originates from Supplier's underlying platform and core functionalities.

Part C – Defined Terms

11 Defined Terms

In addition to the defined terms in the General Terms, capitalised terms in this Schedule will have the below meanings (and in the case of conflict between these defined terms and the defined terms in the General Terms, these defined terms will take precedence for the purposes of this Schedule). BT has repeated some definitions in this Schedule that are already defined in the General Terms. This is to make it easier for you to find the definitions when reading this Schedule.

"BT Price List" means the document containing a list of BT's charges and terms that may be accessed at: www.bt.com/pricing (or any other online address that BT may advise you).

"BT Calling Plan" has the meaning given in Paragraph 2.1.2.

"Business Hours" means between the hours of 0800 and 1700 in a Business Day.

"Call Analytics" means the dashboard used by BT for supporting the Customer's voice service Users and is also available for the Customer authorised administrator to use. Call analytics will support Customer authorised administrators to troubleshoot call or quality problems with Microsoft Teams and shows information about devices, networks, and connectivity.

"Call Quality Dashboard" means the entry point to reports and call quality information accessible by the Customer's authorised administrators, enabling the Customer to gain insights into the quality of calls made using Microsoft Teams.

"Cardholder Data" means the unique payment card number (typically for credit or debit cards) that identifies the issuer and the particular cardholder account.

"Customer Equipment" means any equipment including any Purchased Equipment and any software, other than BT Equipment, used by you in connection with a Voice Calling with Microsoft Teams Service.

"Customer Onboarding and Service Transition" has the meaning given in Paragraph 2.1.1.

"De-installation Charges" means the charges payable by you on de-installation of the Voice Calling with Microsoft Teams Service that are equal to the then current rates for Installation Charges on the date of de-installation.

"Device" means any mobile handset, laptop, tablet or other item of handheld equipment, including all peripherals, excluding SIM Cards and applications, which are in scope of the Voice Calling with Microsoft Teams Service, as set out in the Order.

"Domain Name" means a readable name on an Internet page that is linked to a numeric IP Address.

"Enabling Service" has the meaning given in Paragraph 5.1.

"EU" means European Union.

"General Terms" means the general terms to which this Schedule is attached or can be found at www.bt.com/terms, and that form part of the Contract.

"G-SIP Schedule" means the global voice service that is subject to the terms found at https://www.globalservices.bt.com/content/dam/globalservices/documents/terms-and-conditions/bt-termsand-conditions/BTL_BTGS_OneVoiceSch_published24July2020.pdf

"Incident" means an unplanned interruption to, or a reduction in the quality of, the Voice Calling with Microsoft Teams Service or particular element of the Voice Calling with Microsoft Teams Service.

"Installation Charges" means those Charges set out in any applicable Order in relation to installation of the Voice Calling with Microsoft Teams Service.

"Internet" means a global system of interconnected networks that use a standard Internet Protocol to link devices worldwide.

"Internet Protocol" or **"IP"** means a communications protocol for devices connected to the Internet that specifies the format for addresses and units of transmitted data.

"IP Address" means a unique number on the Internet of a network card or controller that identifies a device and is visible by all other devices on the Internet.

"Meeting Service Request" has the meaning given in Paragraph 2.1.6.

"Microsoft Calling Plan" has the meaning given in Paragraph 2.1.3.

"Microsoft Teams" means the business collaboration service and unified communication platform provided by either BT, the Supplier or a third party.

"Minimum Period of Service" means a period of months beginning on the Service Start Date, as set out in any applicable Order.

"Minimum Revenue Commitment" means the minimum number of Users (as set out in your Order) that will use the Voice Calling with Microsoft Teams Service within a calendar month.

"Monthly Recurring Charges" means the monthly Recurring Charges for the Voice Calling with Microsoft Teams Service and the sum of the Usage Charges for the three full previous months divided by three.

"Non-Standard Service Request" has the meaning given in Paragraph 3.2.

"Notice to Amend" has the meaning given in Paragraph 6.1.1.

"One Voice Schedule" means the network based public telephony service that is subject to the terms found at https://www.globalservices.bt.com/content/dam/globalservices/documents/terms-and-conditions/bt-termsand-conditions/BTGSLegal_BTONVcSIPTrnkUKSch_10Nov2017.pdf

"PCI DSS" means the Payment Card Industry Data Security Standards, a set of policies and procedures, issued by the PCI Security Standards Council LLC (as may be adopted by local regulators) and intended to optimise the security of credit and debit card transactions and protect cardholders against misuse of their personal information.

"Planned Maintenance" means any Maintenance BT has planned to do in advance.

"PowerSuite" means PowerSuite for Microsoft Teams, the hosted operations and analytics framework on Microsoft AzureTM. PowerSuite collects information from multiple data sources with the intention that the end-to-end service is working for Users. Actual dashboard availability is subject to Microsoft's API capabilities and the integration capabilities of the PowerSuite vendor.

"Professional Services" means those services provided by BT which are labour related services.

"PSTN" means Public Switched Telephone Network, which is the concentration of the world's public circuit switched telephone networks.

"Recurring Charges" means the Charges for the Voice Calling with Microsoft Teams Service or applicable part of the Voice Calling with Microsoft Teams Service that are invoiced repeatedly in every payment period (e.g. every month), as set out in any applicable Order.

"Regional Internet Registry" means an organization that manages the allocation and registration of Internet number resources within a particular region of the world. Internet number resources include IP Addresses and autonomous system (AS) numbers.

"Renewal Period" has the meaning in Paragraph 6.2.2.

"Service Desk" means the helpdesk that you are able to contact to submit service requests, report Incidents and ask questions about the Voice Calling with Microsoft Teams Service.

"Service Management Boundary" has the meaning given in Paragraph 4.1.

"Service Options" has the meaning given in Paragraph 3.

"Site" means a location at which the Voice Calling with Microsoft Teams Service is provided.

"Standard Service Packages" has the meaning given in Paragraph 0.

"Supplier" means Microsoft Corporation with registered address at One Microsoft Way Redmond, WA 98052-7329, USA.

"Teams Dashboard and Analytics" has the meaning given in Paragraph 2.1.7.

"Territory" means the UK.

"Ticket" means the unique reference number provided by BT for an Incident and that may also be known as a **"fault reference number"**.

"Usage Charges" means the Charges for the Voice Calling with Microsoft Teams Service or applicable part of the Voice Calling with Microsoft Teams Service that are calculated by multiplying the volume of units that you used or incurred in a period (e.g. number of agents using the Voice Calling with Microsoft Teams Service, or the number of minutes the Voice Calling with Microsoft Teams Service was used for) with the relevant fee as set out in any applicable Order.

"Voice Quality of Experience" means BT's end-to-end support of BT's Calling Plans integrated with Microsoft Teams. The quality of experience service will provide the Customer with a cross-service, cross-supplier view of the voice services. It provides analysis to optimise performance and maximise User satisfaction. BT can only provide trunk information from BT provided SIP services.

"Voice Calling with Microsoft Teams Service" has the meaning given in Paragraph 1.

"Voice Service Request" has the meaning given in Paragraph 2.1.5.
