Part D – Defined Terms

8 DEFINED TERMS

In addition to the defined terms in the General Terms and the terms of the BT Cloud Voice and Cloud Voice SIP-T Schedule to the General Terms, capitalised terms in this Annex will have the following meanings (and in the case of conflict between these defined terms, the defined terms in the BT Cloud Voice and Cloud Voice SIP-T Schedule to the General Terms, and the defined terms in the General Terms, these defined terms will take precedence for the purposes of this Annex):

“National Numbering Scheme” means the detailed data published by Ofcom and updated from time to time in relation to the allocation and availability of telephone numbers.

“Network Number” means a number which identifies the origin of a call. Where a caller has not selected to use a different number for display to the recipient of the call, the Presentation Number is the same as the Network Number.

“PN Service Option” means the Presentation Number Service Option as detailed in Part 1 of this Annex.
"PN Service Option Order" means any order of yours or part of an order accepted by BT for the installation, delivery, maintenance and provision of the PN Service Option to you that includes details of your PN Service Option as agreed between both of us, and that forms part of the Contract.

"PN Service Option Start Date" means the date detailed in the PN Service Option Order on which the PN Service Option starts.

"Presentation Number" means a number nominated or provided by a caller that can identify that caller and be used to make a return or subsequent call and is therefore a diallable number. It does not necessarily identify a call’s point of ingress to a public network.
