Part C – Service Levels

11 SERVICE AVAILABILITY

11.1 Availability Service Level

From the Service Start Date, BT will provide the Central Server Software with a target availability as set out in the table below (“**Availability Service Level**”):

Availability Annual Target	Maximum Annual Availability Downtime	Maximum Monthly Availability Target	Service Credit Interval	Standard Availability Service Credit Rate	Elevated Availability Service Credit Rate
≥ 99.50%	43 hours	9 hours	1 hour	4%	4%

11.2 The Availability Service Level only applies to the availability of the Central Server Software and not the functionality of the Asset Monitoring Devices.

11.3 Service Credits

11.3.1 If a Severity Level 1 Incident occurs, BT will measure the Availability Downtime for Central Server Software in units of full minutes starting from when you report or BT gives you notice of a Qualifying Incident, and ending when BT closes the Qualifying Incident in accordance with Paragraph 10.3.

11.3.2 BT will then calculate the cumulative Availability Downtime for the calendar months in which the Severity Level 1 Incident occurred (“**Cumulative Monthly Availability Downtime**”) and for the previous 12 consecutive calendar months (the “**Cumulative Annual Availability Downtime**”), but in the event that the Central Server Software has been operational for less than 12 consecutive months, we will apply an assumed Cumulative Annual Availability Downtime for the previous 12 consecutive months using the Availability Downtime data recorded to date.

11.3.3 In the event that the Cumulative Monthly Availability Downtime by Service exceeds the Maximum Monthly Availability Downtime, you may request the Standard Availability Service Credit Rate for each stated Service Credit Interval above the Maximum Monthly Availability Downtime.

11.3.4 In the event that the Cumulative Annual Availability Downtime by Service, measured in accordance with Paragraph 11.3.1, exceeds the Maximum Annual Availability Downtime, you may request the Elevated Availability Service Credit Rate for all further Qualifying Incidents for each Service Credit Interval above the Maximum Annual Availability Downtime up to and until the Cumulative Annual Availability Downtime by Service is less than the Maximum Annual Availability Downtime.

12 REQUESTS FOR SERVICE CREDITS

12.1 You may request applicable Service Credits within 28 days of the end of the calendar month in which a Qualifying Incident occurred by providing details of the reason for the claim. Any failure by you to submit a request in accordance with this Paragraph 12.1 will constitute a waiver of any claim for Service Credits for that calendar month.

12.2 Upon receipt of a valid request for Service Credits in accordance with Paragraph 12.1:

12.2.1 BT will issue you with the applicable Service Credits by deducting those Service Credits from your invoice within two billing cycles of the request being received; and

12.2.2 following termination of the Contract where no further invoices are due to be issued by BT, BT will pay you the Service Credits in a reasonable period of time.

12.3 Service Credits for all Service Levels will be aggregated and are available up to a maximum amount equal to 100 per cent of the monthly Recurring Charge for the affected Site or Circuit.
